Problem Statement

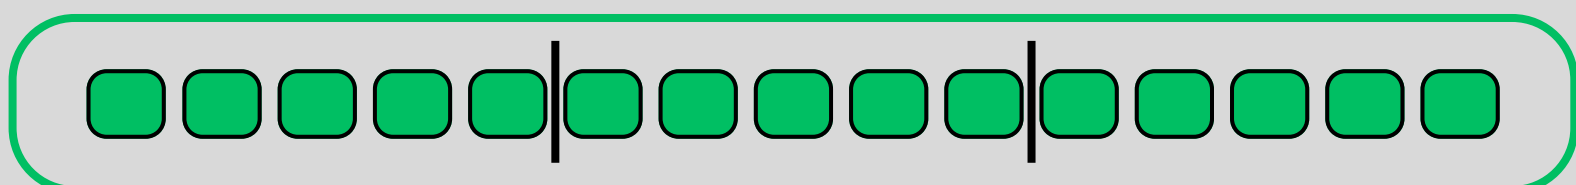

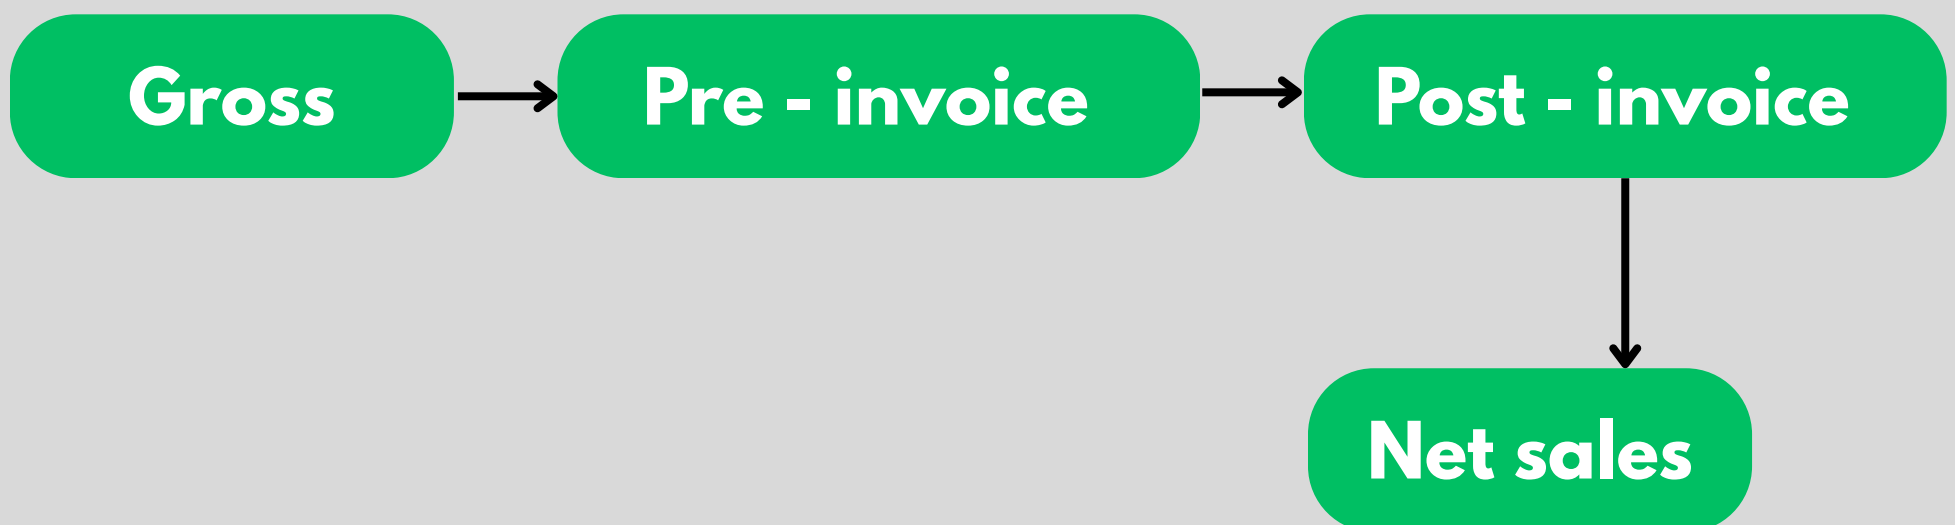

DAY 15 / 15

10/08/26

- Today' ask : Build FY2021 top 10 customers by Net sales
- For each customer show their share of total net sales

The challenge

- Net sales in full chain - not just gross_sales

Requirment

DAY 15 / 15

10/08/26

1

Gross Sales

`sold_quantity * gross_price`

2

Gross Sales

`sold_quantity * gross_price`

3

Gross Sales

`sold_quantity * gross_price`

4

Gross Sales

`sold_quantity * gross_price`

One query - Five readable stages

Gross sales report > attach the price and raw sales , sum to gross

Net invoice sales report > attached the pre deductions %

Net sales report > attach the post deductions %

Customer sales report > GROUP BY customer + SUM net sales

Ranked report > RANK + % of total

final SELECT > Top 10 + order by rank
