

**I JOINED ON
Product_code ONLY
GOT WRONG
GROSS SALES**

ATLIQ HARDWARE GDB0041

MYSQL | Vishnu Ram Sachin | Data Analyst

Problem

Statement

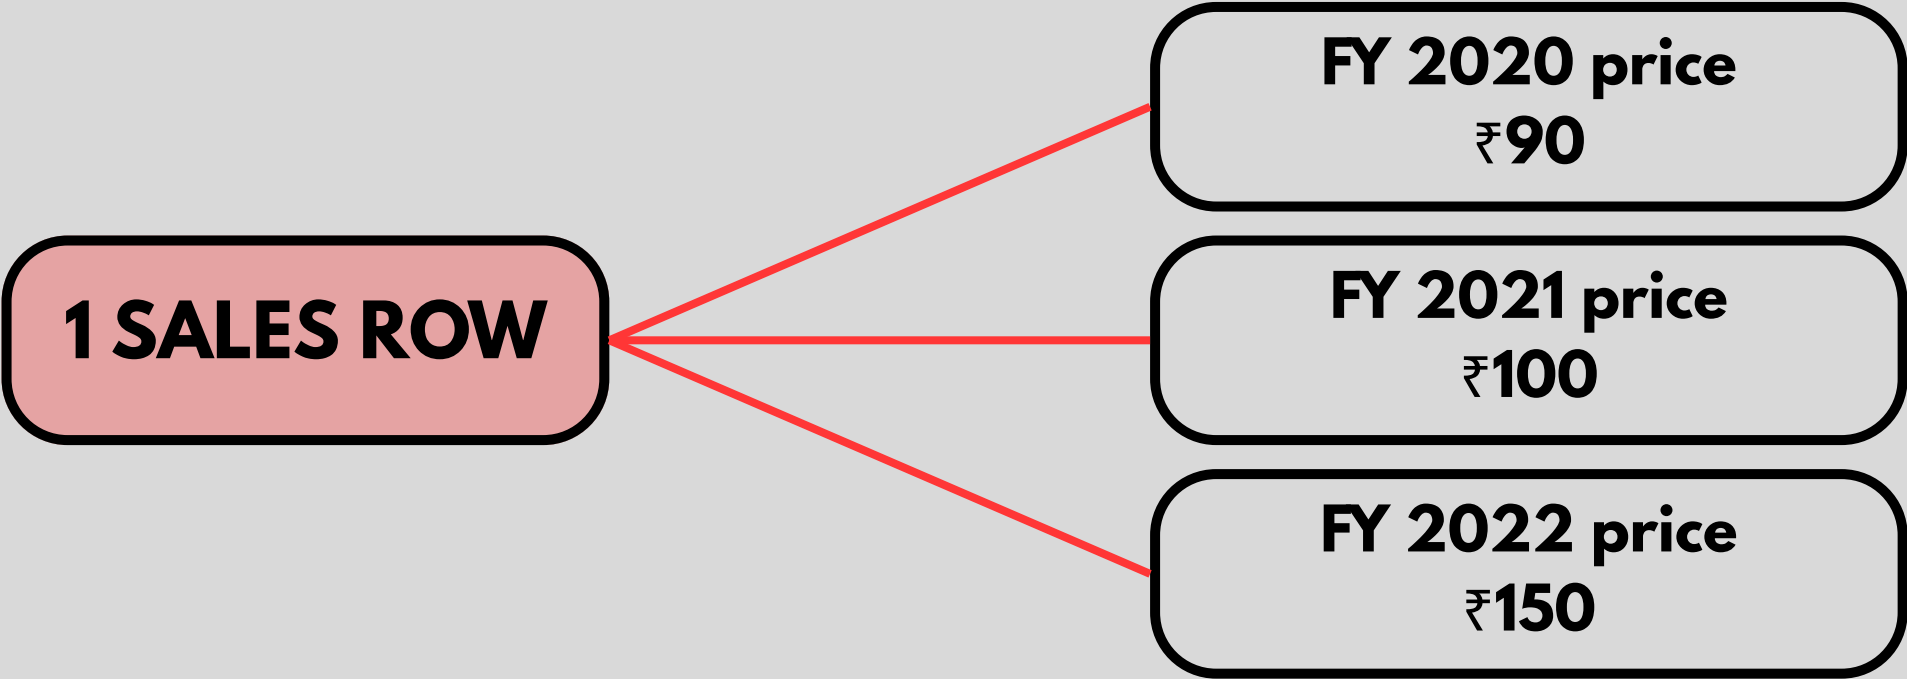

DAY 3 / 15

29/07/26

- Table: fact_sales_monthly (sold_quantity)
- Table: fact_gross_price (product_code, fiscal_year , gross_price)
- Your manager **money(gross sales) not units.**

The Trap ❌

- JOINED ON Product_code runs clean but gross_price differs by fiscal_year for individual product_code.

Requirment

DAY 3 / 15

29/07/26

product_code

fiscal_year

Both columns together

The Fix

```
ON fs.product_code = gp.product_code  
AND fs.fiscal_year=gp.fiscal_year
```

Bonus Find

DAY 3 / 15

29/07/26

A trap that hides even after JOIN

GROUP BY fs.product_code , fs.fiscal_year

WITHOUT GROUP BY ----- one value per row

WITH GROUP BY ----- Correct result

A Quick Analogy

Petrol Price

2023

2026

Same product,
Different year, Different price

Likewise gross_price belongs to individual
product_code AND fiscal_year together

Price $\neq$ Fixed

Fix Query

DAY 3 / 15

29/07/26

SELECT

fs.product_code,

fs.fiscal_year,

ROUND(SUM(fs.sold_quantity * gp.gross_price)

/1000000,2) AS gross_sales_mln

FROM gdb0041.fact_sales_monthly fs

JOIN gdb0041.fact_gross_price gp

ON fs.product_code=gp.product_code

AND fs.fiscal_year=gp.fiscal_year

GROUP BY fs.fiscal_year,fs.product_code;

Results

DAY 3 / 15
